

Aims & Scope

The Journal of Traditional and Complementary Medicine (JTCM) is a quarterly open-access journal that covers the fields of traditional medicine, preventive herbal medicine, and dietary therapy. The Journal provides a global platform for discussion, perspectives and research traditional and alternative medicine.

JTCM focuses on both Eastern and Western complementary medicine and welcomes articles from all medical perspectives. JTCM encourages submissions which present observation and experimental investigation in clinical studies, animal experiments, and in vivo/vitro studies.

Major topics covered include:

- Traditional medicine
- Herbal medicine
- Folk medicine
- Preventive medicine
- Dietary therapy
- Mind-body therapies
- Other traditional and complementary therapies
